Firebird Conference 2019

Berlin, 17-19 October

IBSurgeon

FirebirdDbComparer

- “FirebirdDbComparer is pure managed .NET library that allows comparing of two Firebird databases and producing alter script to get the target database to the sources’ structure.”

FirebirdDbComparer

- Firebird 2.5, Firebird 3
 - Firebird 4 planned
- Sane update scripts
- No direct changes of system tables
- Structured output
 - + available API for custom use

FirebirdDbComparer

- Heavily tested
- Heavily used since 2015
- Free (honesty “model”)
- Danny Van den Wouwer + me
- Sponsored by SMS-Timing
